Deutsch Terminal & Connector Assortment Kit

GLB2020-12

DEUTSCH KIT

83-6549 | Deutsch Terminal & Connector Assortment Kit

The handy new 18 compartment Deutsch Kit includes 98 assorted DT Series connectors, thermoplastic housings and wedge locks. The kit includes an easy to use reorder reference chart on the inside cover. The sturdy plastic reclosable container keeps all the connectors in one convenient location.

The nickel plated connectors include solid and open barrel wire terminals in both male and female contacts. The terminals are rated at 13 amps @ 125°C (257°F) continuous operating temperature. Silicon seals included with the housings provide a superior seal to withstand moisture and other environmental elements from contaminating the connection.

DID YOU KNOW?

Deutsch DT series environmentally sealed connectors are designed specifically for cable to cable applications. The connectors provide reliability and performance in the engine, transmission, under the hood, on the chassis, or in the cab. The Thermoplastic, flame-retardant housings offer a wide operating temperature range (-55°C/-67°F to 125°C/257°F). The silicone rear wire and interface seals allow the connectors to withstand extreme temperatures and moisture. Contact insertion and removal do not require any special tools. All connectors are designed to carry the rated current at the maximum rated temperature.

DO YOU NEED?

To ensure the best possible connection, Grote recommends you use the right tool for the best connection possible. Grote offers the following two Deutsch tools.

For a full listing of DT and DTM series terminals and connectors refer to Grote's Electrical Connections & Accessories catalog (pages 24 & 25) and visit us anytime, anywhere at www.grote.com
