

MicroNova® Dot Adapter Brackets

Data Sheet

PRODUCT SPECIFICATIONS

MATERIAL:

Black Polycarbonate

GROMMET MOUNT

Assembles directly into 2" and 2.5" PVC grommets

FLANGE MOUNT

Mounts with three #10 pan or round head screws

Hole pattern is identical to existing 2" and 2.5" flanges

Torque to a maximum of 25 in-lbs

Flange style brackets have "torque resistance" features around the mounting holes that minimize the ability to damage the adapter plate by over torquing

lamps not included

Grote's MicroNova® Dot adapter brackets provide an easy and inexpensive way to upgrade existing 2" and 2.5" clearance/marker applications with superior MicroNova® LED Dot lamps.

- MicroNova® Dot adapter brackets provide an easy LED replacement for an incandescent lamp installation.
- MicroNova® Dot lamps can now be installed in existing bodywork anywhere a 2" or a 2.5" clearance/marker lamp fits today with no change to the vehicle mounting surface.
- MicroNova® Dot lamp must be equipped with a standard MicroNova® Dot grommet to fit in adapter brackets.
- Adapter brackets are supplied in bulk packages of 10 units or individually in polybags. MicroNova® Dot lamps are not included.
